Category	Number of members	Attributed risk	Shared characteristics of the set
Group 1	20388	Medium	Farmers are located in the same geographical area & following similar agricultural operations, however the risk is medium.
Estimated time to evaluate the sites:			18 days for farmer visit (87 Farmers to be inspected, 5 farmers per day/auditor & document verification)

<p><b>Brief justification:</b></p>	<p>All farmers are small holders &amp; documentation is centrally managed.</p> <p>Farmers are located in same geographical proximity &amp; following similar agricultural practices</p> <p>Farmers &amp; fields are located nearby.</p> <p>Farmers are aware of the sustainable farming requirements. No land conversion or deforestation is happened.</p> <p>Considering above observation, auditor can audit approximately 6 farmers per day.</p> <p>No risk of GMO crop is there. Less use of fertilizers and chemicals.</p> <p>Less risk of labour issues as child labour.</p>

### 1.3.1. RTRS Principles and Criteria

Principle	Criteria	Applicant performance
<b>1 - Legal Compliance and Good Business Practice</b>	1.1	Applicable law related documents are maintained by ICS. Farmers are aware about the applicable legal requirements and laws with awareness to minimum wages, child labour, no discrimination and no harassment requirements. Applicable taxes, Electricity bills and revenue tax are paid by farmers.
	1.2	Right to use the land is demonstrated. Land records like Khasra No, Bhoo Adhikar Patra, Bhu adhikar/Wrin Pustika, Field observation are available with the farmers.
	1.3	Review on the agricultural, environmental and social review has been conducted, indicators are identified, and it was documented in Agricultural, Environmental & Social review improvement document
	2.1	There are only temporary employees. Children below 18 years age are not entertained for work, usually go to school and forced labour was not observed.
	2.2	The labours are only temporary employees with verbal agreements followed. Training on Health and safety is conducted. Wages paid are more than the minimum wages.

<b>2 - Responsible Labor Conditions</b>	2.3	Workers are aware about the safety requirements and health issues associated with unsafe agrochemical applications, however workers are not hired if they do not agree to use protective equipment's. PPE available with all farmers, Hand Gloves, Mask, boots and special clothes provided by farmers to labours. As per the discussion with farmers there was a written procedure available on accident and emergency.
	2.4	No any restriction on workers, farmers allow to workers interact with other (e.g. NGOs, trade unions, labour inspectors, agricultural extension workers, certification bodies).
	2.5	No deduction observed in the wages paid. Workers also confirmed that wages are not deducted for disciplinary purpose. Only temporary workers are employed during the peak season. Farmers & workers confirmed during the interviews that no overtime is carried out
<b>3 - Responsible Community Relations</b>	3.1	All farmers are small holders. Communication for farm activates & operation is made verbally.
	3.2	No case of disputed land use right observed. Farming is carried out on own agricultural land.
	3.3	In ICS manual complaint registers process are mention. Complaint & grievances are dealt in 14 days. Details are recorded in complaint & grievance registers. Complaints and grievance handling procedure available in ICS manual
	3.4	Workers are employed from same or nearby villages. Trainings are provided to the farmers & villagers on the sustainable agriculture to raise their awareness.
<b>4 - Environmental Responsibility</b>	4.1	Review on the agricultural, environmental & social assessment has been conducted by ICS.
	4.2	There are no fires in the region. Crop residue is incorporated in the soil to improve soil organic matter or used as animal feed, and the agricultural waste is decomposed and used as FYM. Non agricultural waste is disposed in safe manner.
	4.3	On the soil bunds native vegetation is maintained which also checks the soil erosion and by the maintenance of perennial trees on the field and in the conservation areas of the villages. The farmers are aware about the usage of fossil fuel, but there is no provision to record the use of fossil fuel in the farm dairy.

	4.4	No expansion on non agricultural area has been done. Farmers use their agricultural land to produce soybean. No agricultural operations are carried out in riparian zone.
	4.5	Hunting is not carried out by the farmers & workers. Local plants species are enhanced to promote vegetation. Awareness to this legal requirement is demonstrated in the interviews with farmers & workers.
<b>5 - Good Agricultural Practice</b>	5.1	ICS has trained farmers on good agricultural practices. Soil bunds are maintained, shallow tillage practices are followed to reduce soil erosion. Agrochemical application is done to intended area. Soil bunds are maintained to reduce water erosion. No agrochemicals are sprayed in the water course. No irrigation is used in the soybean however ICS has prepared best irrigation practices for other crops. Farmers are aware of best irrigation practices.
	5.2	No vegetation is removed from the riparian area. Farmers confirmed that natural vegetation is not removed from riparian zone.
	5.3	Soil bunds are maintained around the farms. Shallow tillage practices are followed. Soil organic matter is also monitored.
	5.4	Manufacturers recommendations are followed by the farmers. Only registered agrochemical use by the farmers. As observed during field visits most of the farmers follow organic practices, so they used farm organically prepared inputs.
	5.5	Transport separately and purchased by trained person, All the farmers are small holders hence agrochemicals are brought whenever required. Agrochemicals are stored away from children's reach. Red flags are placed to indicate recently sprayed areas. Neighbours are informed verbally on spraying activities.
	5.6	Use of cultural practices like crop rotation, Biological practices use of homemade botanicals, neem & cow urine spray, removal of insects & infested parts, hand weeding & chemical controls on need based, judicious & registered chemicals are followed by the farmers to reduce use of chemicals.
	5.7	Not applicable. There is no use of biological control agent.
	5.8	Identification and monitoring of invasive species and outbreaks of existing pestes is done by agricultural department, also farmers follow recommendations issued by agricultural department in case of major outbreaks.

	5.9	Aerial application is carried out however agrochemicals are sprayed only to the intended area, and no agrochemicals are sprayed near to the sensitive area.
	5.10	Farmers following similar agricultural practices. No GM soybean is available in India.
	5.11	Origin of seeds is recorded in the farm diaries. Purchase receipts are maintained. Certified seeds or seeds of previous year production are used.
<b>Annex I: Chain of Custody System Requirements for Producers</b>	1.1	Only ICS is authorized to sell & claim certified soybean. Group members are not authorized to sell soybean as RTRS certified. ICS manager is responsible to make RTRS claims.
	2.1	No RTRS soybean traded physically however buying procedure has been laid down which includes RTRS requirements for invoicing. ICS manager found to be aware of the RTRS requirements of invoicing certified soybean sale.
	2.2	Harvest quantities are recorded by the ICS in farmer list under actual harvested quantities. Physical trading record template is available to record sales quantities. No sell of certified soybean is done yet.
	2.3	Templates of physical supply and credit trading are maintained, also the purchase documents of inputs. Production quantities are recorded in the farm diaries and farmers list, training related to RTRS requirements are provided and recorded. No sale has been done
	2.4	The group it is not certificate yet, accordingly, no sale of certified soybean .
