## 1. Initial Assessment General Details

<b>Organization Name:</b>	Landmark Agri Exports Private Limited
<b>Country:</b>	India
<b>Contact person:</b>	Mr.Jitendra Mandrah
<b>RTRS Standard used for the assessment:</b>	RTRS Indian National Interpretation Version 2.0
	RTRS Responsible Soy Production Standard Version 3.1
	RTRS Group and Multi-site Certification Standard Version 3.1
<b>Assessment Type:</b>	Group
<b>Partial certification:</b>	No
<b>Audit dates:</b>	25 a 29/09/2021
<b>Total area (ha):</b>	10081,64
<b>Cultivated total area (ha):</b>	9406,24
<b>Estimated Production (Tonnes):</b>	-
<b>Real Production (Tonnes):</b>	17602,46

## 1.2. Assessment process

### 1.2.1. Assessment team

Role	Name	Qualifications (including field of expertise)
Lead Auditor	Niketan Patil	Bachelor of Business Management in Agriculture, M.B.A in Marketing, 5 year Job experience out of this 4 year experience of Sustainable and Organic certification auditing like RCI, PepsiCo-SFI, Sustainable Castor Initiative, NPOP,NOP),FSA, Palm Oil, SRP etc.
2nd auditor	Sudeep Nair	M. Sc Informatics 13 years experience of certification auditing like Organic farming (NPOP, NOP, EU), UTZ, RSPO, Trustea, FSA and Bonsucro.

### 1.2.2. Certification

<b>Certificate code:</b>	RTRS-CUC-AGR-COC-0099
<b>CUC Certificate Code:</b>	C880253RTRS.AGR-01.2022
<b>Issueance date of the first certificate:</b>	18/05/2022
<b>Estimate period for the next audit:</b>	07/08/2022

### 1.2.3 Assessment agenda

Date	Time	Site	Activity
25.09.2021	09:00 - 09:30	ICS office	Opening Meeting

25.09.2021	09:30 - 12:00	<p>Field Visit ( 4 farmers by 2 Sudeep and 2 By Niketan)- RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers</p> <p>RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018</p> <p>RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN</p> <p>Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0</p>	Biaora mandu And Diwad
------------	---------------	---	------------------------

25.09.2021	13:00 to 18:30	<p>Field visit- 6 farmers (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers</p> <p>RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018</p> <p>RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN</p> <p>Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)</p>	Biaora mandu and Amgarha
------------	----------------	---	--------------------------

26.09.2021	09:30 to 12:00	Field visit- 5 farmers (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018 RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)	Dhakani and Eklara
26.09.2021	12:00-13:00	Lunch	0

26.09.2021	13:00 to 18:00	<p>Field visit- 5 farmers (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018 RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)</p>	Eklara and Dhanora
------------	----------------	--	--------------------

27.09.2021	09:30 to 12:00	Field visit- 5 farmers (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018 RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)	Taleni and Taraganj
27.09.2021	12:00-13:00	Lunch	0

27.09.2021	13:00 to 18:00	Field visit- 6 farmers (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018 RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)	Taraganj and Bilodpurabiya
28/09/2021	09:30 to 12:00	Stakeholder consultation (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018 RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)	Village Representative- Saharanpur

28/09/2021	12:00-13:00	Lunch	
28/09/2021	13:00 to 18:00	Document verification and review (Stakeholder consultation (RTRS Responsible Soy Production Standard. Version 3.1 – 01/06/2017 Including Annex I - General Chain of Custody System Requirements for Producers RTRS Group and Multi-Site Certification Standard Version 3.1– 31/05/2018 RTRS Non-GMO Module Requirements for Producers Version 1.0 – 26/04/2018 EN Indian National Interpretation for the RTRS Standard for Responsible Soy Production v2.0)	ICS office
29/09/2021	09:30 to 12:00	Audit Summarization	ICS office
29/09/2021	12:00 – 13:00	Closing Meeting	ICS office

#### 1.2.4. Stakeholder Consultation Process

Landmark Agri involve in various types of local work, like providing training to farmers and how to increase net profit and working on Health and Education. Also, the company is very helpful to increase the income and minimise the cost of production in the village. Positive comments were received from the stakeholders

#### 1.2.5. Site selection

Risk identification is done based on available information locally, maps of the area, information from ICS and based on the result of ICS risk assessments. All farmers are located in the same geographical proximity and follow similar production practices. As risk is identified as low hence as per sampling methodology 31 farmers.

#### 1.2.6 Methodology of the audit time calculation

<b>Total number of members of the Multi-site or Group:</b>	2692
<b>Risk elements identified by the audit team for sampling methodology:</b>	Risk identification is done on the basis of available information locally, maps of the area, information from ICS and based on the result of ICS risk assessments. All farmers are located in the same geographical proximity and follow similar production practices. As risk is identified in Calculator as Low hence as per sampling is 31 farmers.
<b>Sample calculation:</b>	According to RTRS Calculator for Initial Group Certification - 31 farmers + 1 internal control system
<b>Sites randomly selected</b>	
<b>Name of Unit</b>	<b>Address</b>

Santosh singh			Bilodapurabiya
Category	Number of members	Attributed risk	Shared characteristics of the set
Group 1	2692	low	Total 10 Man-days required for Farm verification, ICS documentation, Stakeholders Consultation and Review. Total 2 auditors for 5 days of auditing.
Estimated time to evaluate the sites:			
Brief justification:			Farmers are located in the same geographical area and follow similar agricultural operations, Farmers are selected based on Land Size, Employee Size and Location. In India GMO risk in Soybean is zero.

### 1.3.1. RTRS Principles and Criteria

Principle	Criteria	Applicant performance
<b>1 - Legal Compliance and Good Business Practice</b>	1.1	As per the interview with farmers, they are all aware of the applicable laws not having child labour, discrimination and wildlife degradation. Farmers pay wages more than the minimum wages to the temporary employees and also, have a good knowledge of the local law as well as RTRS principles.
	1.2	Farming is done on legally owned land. Farmers are aware of the Land use and they have the ownership documents, that are available to farmers and can be verified on the Madhya Pradesh Government website- mpbhulekh.gov.in. ICS have a copy of the land document available at the office.
	1.3	Social, Agriculture and Environmental Impact assessment done for Soyabean cultivation in Madhya Pradesh state and conducted by SAEIP Gujrat, this is an organisation that conducts the Environmental and Social Impact Assessment. Training is given to farmers on improvement areas and farmers are found aware of the requirements.

<b>2 - Responsible Labor Conditions</b>	2.1	<p>Only temporary workers are employed on the farms and they are from local villages. No forced, compulsory, bonded or involuntary labours were observed. A mutual agreement between the worker and the farmer is made, also nothing relating to the workers, such as identity, salary or property, is retained with the employer.</p> <p>All workers are treated equally, children are not employed on the farm and under-ages 18 are not employed</p> <p>Men and women workers are paid equally for equal work, moreover, farmers pay workers more than minimum wages.</p>
	2.2	<p>Written agreements are not available due to the high rate of illiteracy. Temporary workers are employed during agricultural operations whenever needed more help with the crops. Wages are mutually agreed upon between farmers and workers, also farmers pay more than the minimum wages to workers as per agreed, it is more than local minimum wages. The ICS has arranged the farmers training on different topics at the village level.</p>
	2.3	<p>Farmers and workers are aware of the health and safety risk and its corrective measures. Only experienced persons are involved in high-risk jobs and pesticide spraying is only done by trained workers.</p> <p>Accident and Emergency procedures are written available in the ICS for verification.</p> <p>First aid kits were available with all audited farmers. ICS provided First aid kits to farmers.</p>
	2.4	<p>No works Unions are available. However, the negotiation is done by the workers with farmers. Wages are given based on minimum wages.</p> <p>Workers are allowed to interact with any external parties, there is no restrictions imposed on the workers;</p>
	2.5	<p>Workers are employed temporarily according to their daily working needs. Farmers pay workers more than Minimum wages and the agreement is made mutually between farmers and employees before the design job. Normal working hours are 7 to 8 hours per day and no overtime activity is carried out.</p> <p>No wages deduction were observed and workers also confirmed that wages are not deducted for disciplinary purposes.</p> <p>Potable water is provided to the workers, which is the same used by the farmers. The Local government regularly test water quality and the test reports are available for verification in the local government office.</p> <p>As only temporary workers are employed there is no need to be provided housing.</p>
	3.1	<p>All farmers in the group are smallholders. Communication for farm activities and operations is made verbally in the communities.</p> <p>ICS has provided training to villages along with member farmers and workers on RTRS. ICS maintain a communication channel between stakeholders, interested parties and farmers, and communication records are available for verification.</p>

<b>3 - Responsible Community Relations</b>	3.2	<p>All farmers have land document proof available with them and they carry out the lands since 30-40 years ago.</p> <p>No disputes were noticed during the interviews. Verification of land records like Form B-1 and Khasara number.</p>
	3.3	<p>The complaint procedure is defined in ICS Manual and maintained at the ICS office. The farmers are aware of the ICS complaint mechanism.</p> <p>No complaints received so far; according to the procedure, the group has 2 months to solve a received complaint.</p>
	3.4	<p>Workers are employed from the same villages or nearby. ICS has imparted training to the farmers, workers and villagers on sustainable agriculture and anyone from the village can attend the session.</p> <p>All farmers are smallholders, so the agricultural inputs like seeds, fertilizers and pesticides are sourced locally.</p>
	4.1	<p>Social, Agriculture and Environmental Impact Assessment was done for Soyabean cultivation in Madhya Pradesh state and conducted by SAEIP Gujrat, which is a third-party organisation. Training is given to farmers on improvement areas and farmers are found aware of the requirements. As per an interview with the manager, farmers and field observation found that the assessment is carried out in a comprehensive and transparent manner, also no negative impacts were found in the report. In assessment report clearly mentions the future planning and improvements needed.</p>
	4.2	<p>The Crop residue is incorporated into the soil to improve soil organic matter. As the farmers are smallholders the fuel is not stored, it is bought whenever required and used immediately.</p> <p>Empty agrochemical containers are disposed of in barren land and they are not reused. In this area some authorised empty CPP container collectors are available and they collect empty containers locally. Some farmers rinse triple, puncture it and bury it in Barren land. Burning is legally prohibited. A small quantity of oil is required as the farmers have small landholding, also the oil is not stored as such, it's used immediately when bought.</p> <p>A Written plan is available on Residue management in the ICS.</p>

4 - Environmental Responsibility	4.3	<p>The system at the ICS monitors the use of fossil fuels in the farms, and the records of fuel usage are kept in the farm diary. Farmers confirmed that fuel use is decreased every year. Tractors and types of equipment efficient in the use of fuel are being used for farming.</p> <p>Native plant species are enhanced and planted to increase carbon sequestration. Ground covers are also maintained by the farmers. ICS provide awareness training on reforestation and also provided seedlings to the farmers.</p> <p>During the audit observed new plantations on the field and also verified the records. KML maps were available for verification.</p> <p>ICS is responsible for doing soil samples analysis and the results are communicated to farmers.</p>
	4.4	<p>No expansion on non-agricultural areas has been done. Farmers use their agricultural land to produce soybean for more than 30-40 years. No agricultural operations are carried out in the riparian zone.</p> <p>KML maps for fields of all farmers are available. Verification of KML maps found that farmers used only agricultural land for farming.</p>
	4.5	<p>Farm maps with illustrations of native vegetation were found and a KML Map was developed through Google Earth.</p> <p>A Plan for implementing native vegetation is being carried out and the ICS prepared a detailed maintenance plan to ensure the expansion of native vegetation</p> <p>Hunting of wild animals/rare, threatened or endangered species is not done, also is legally banned. Awareness of this legal requirement is demonstrated in the interviews with farmers and workers.</p>
	5.1	<p>A Written Plan for Good Agriculture Practices plan is available, which includes the management of Water, Pests, Soil, Residue and nutrients. Plan available for verification.</p> <p>No groundwater contamination is observed, as evidenced by water testing made by ICS. In addition to that, soil sampling is made by a specific lab.</p>
	5.2	<p>The Watercourses like well and rivers are identified in farm maps and overview maps. No vegetation is removed from the riparian area and no wetlands are identified in the area. Native vegetation is maintained by the farmers.</p> <p>The group is composed of smallholder farmers with an average landholding of less than 4 ha.</p>

<b>5 - Good Agricultural Practice</b>	5.3	<p>100% of soil testing is done, so all farmers are included in this procedure. For soil organic matter, the sampling is done every 3 years. There is available a plan for the soil testing and the same is available with the ICS. The results are in the Test Report RLA/Soil/Landmark/2021-2412</p> <p>As the topography of the area is flat and bunds are maintained around the farms, there is no chance of soil erosion in this area. Also, a cover cropping is maintained to reduce the chances</p>
	5.4	<p>The farmers are aware of the Integrated pest, nutrient and crop management plans. They are using light traps, crop rotations, chemical controls and homemade organic controls.</p> <p>The ICM and INM are documented and available to farmers. The use of chemicals and harmful products are just used under recommendation. The record of pests, diseases, weeds and natural predators monitoring are in the farmer's diary</p>
	5.5	<p>All farmers are provided with farm diaries where they record the use and application of fertilizers and pesticides, as the person responsible for the application, the equipment and the Personal Protective Equipment. The weather conditions are observed by the farmers before the application and it is recorded in the diary as well. In addition to that, the Local government send daily notifications to farmers free of cost about the weather conditions.</p> <p>Manufacturers and ICS recommendations are followed by the farmer, and also they just use registered agrochemicals.</p> <p>The agrochemicals are stored in a room with a locked Key and with proper manners. In the sprayed areas the farmers use red flags to signal to avoid people entering those areas.</p>
	5.6	<p>Only legally approved chemicals are used and only my technical recommendation. Carbofuran and Paraquat are not used by farmers. The records are kept in the farmers' diaries.</p>
	5.7	<p>The farmers use Biological control, such as Trichoderma and Ladybird bittle agents for pest control.</p> <p>Farmers are aware of different pests and the biological control needed by each one. Both biologicals are permitted in India and they are recorded in the farmer's diaries.</p>
	5.8	<p>The agricultural department is responsible to identify and monitor invasive species and outbreaks of existing's pests. Farmers follow recommendations issued by the agricultural department in case of major outbreaks.</p>

	5.9	Good agricultural practices are defined and documented by ICS. Soil bunds are maintained around farms, and the spraying of chemicals is not done near the watercourses, natural areas or residential areas. Farmers are aware of the weather conditions and the same is taken into account in the spraying planning. Aerial application is not performed.
	5.10	Farmers use seeds from the previous year's harvest and also purchased from the local market. Seed purchase bills were available to farmers.
	5.11	Own seeds from previous year's productions are used by some farmers which are legally allowed in India.
<b>Annex I: Chain of Custody System Requirements for Producers</b>	1.1	This is initial. The chain of custody requirements will be applicable for this unit. In the ICS manual Requirement and Procedures of the General Chain of Custody procedure are mentioned. During the audit, the ICS manual was verified. This unit will procure the soybean only from the registered farmers of the group.
	2.1	This is the initial audit. The specification of the requirement is defined in the Manual with the number NB/RTRS/CR-01, however, it's not defined which document will have the information
	2.2	This is the initial audit. The specification of the requirement is defined in the Manual and the procedure for invoicing is available. When the organization start procurement and sale then they will issue the invoice, In the draft invoice, they have a provision of identification of the organization (e.g. name, address, other relevant information) and quantity sold. The responsible operator prepared a summary for last year production and also estimated yield summary for the current year.
	2.3	The Organization maintained completed and updated the written records, which cover all applicable requirements of the Chain of Custody Requirements for Producers. The records were available to check during the audit also, ICS managers confirmed that they save records for more than 5 years.

	2.4	The Organization as per the procedure set up Claim and Logo policy in the ICS manual, clearly mentioned that The RTRS certified material is always supplied with the proper documents.
--	-----	--

### 1.3.2. Group and Multi-site requirements

Principle	Applicant performance
<b>1 - Group elements</b>	<p>Group is managed by the organization Landmark Agri which is a legally registered entity as a proprietorship company. The group is formed as an ICS under the same legal entity.</p> <p>ICS Manual was available for verification and all farmers are located in Madhya Pradesh state and follow similar production practices. (Landmark/RTRS/VR 1.0)</p> <p>Group has appointed Mr Jitendra Mandrah as Project Head and is responsible for the implementation of RTRS requirements. Also, he has the authority to issue internal corrective actions and remove group members as stated in the manual. The organisation chart is attached with the manual on page number 4 - Roles &amp; responsibilities are assigned to them to ensure the implementation of RTRS.</p> <p>Sufficient financial, logistic and infrastructure facilities are available and are adequate to manage the size of the group. as the human resources, one Project Head and 15 supporting staff are appointed for ICS management.</p> <p>The applicable taxes are paid by the organization and other registration fees as well.</p> <p>No limit is set to the number of group members Group members are composed of 2692 farmers. RTRS policy is maintained and signed by Mr Jitendra Mandrah</p>

<b>2 - Group and multi-site management procedures</b>	<p>Rules, procedures and responsibilities are documented in the ICS manual, number Landmark/RTRS/VR 1.0, and also the Organization chart is documented. All the necessary items are covered in the manual such as rules regarding the eligibility of members of the group, Withdrawal and suspension of group members, deadlines for NC closures, procedures for inclusion of new group members and complaint procedures.</p> <p>An internal control system is established to ensure compliance with applicable requirements. Staff are appointed for monitoring activities and ensuring compliance. Internal audits are also being conducted.</p> <p>The Farmers' training is organized by the ICS, on topics like RTRS requirements, GAP, Agricultural practices and social and environmental requirements. In addition, it was evidenced during the interview with farmers they are aware of the RTRS requirements.</p> <p>Information is presented to the farmers in the local language Hindi. Farmers signed applications and agreement forms were available for verification during the audit and verified compliance with the standard.</p>
<b>3 - Control and monitoring of member/site compliance</b>	<p>30% internal inspection was done in 2021, and ICS planning 100% internal inspection in a 5-year cycle. No members were excluded from certification as mentioned in the ICS Manual.</p> <p>In case of exclusion of farmers from the group, producer will not be considered and sold as RTRS certified soybean. The risk assessment is carried out for all members and the score of each farmer wise is maintained.</p> <p>The internal audits are done once a year and there were no major non-conformities identified. In case of those 30 days are given to address major non-conformity and 60 days for a minor, if failure the farmer will be excluded from the group.</p>
<b>4 - Record keeping</b>	<p>This is the first audit. All old records are maintained by ICS and were available for verification.</p> <p>The farmers' list is maintained with name, contact details, size of the farm, soybean area and village name.</p> <p>Map of farms and other relevant records are maintained</p>

<b>5 - Chain of Custody</b>	<p>As an Initial audit, there was not any sale of certified material done until the moment.</p> <p>The procedure for selling certified material is available in the ICS manual. As per the manual, only ICS is authorised to sell certified soybean, therefore Individual group members are not authorised to sell certified soybean. Also, only ICS is responsible for credit trading through the trading platform and the responsibility is restricted to Project Head.</p> <p>ICS has a system in place to maintain harvest quantities and sales details. The data is described on an excel sheet that was available during the audit</p>
-----------------------------	--

#### 1.3.4. RTRS EU RED Compliance Requirements for Producers

Not Applicable - The client didn't applied for EU RED

#### 1.3.5. RTRS Non-GMO Module Requirements for Producers

Not Applicable - The client didn't applied for Non-GMO

#### 1.3.6 RTRS Non-Paraquat Module

Not Applicable - The client didn't applied for Non-Parquat

#### 1.4.1. Declaration of compliance

X	The applicant organization <b>COMPLIES</b> with the minimum indicators. Details of all indicators can be
0	The applicant organization <b>DOES NOT COMPLY</b> with the minimum indicators. Details of all indicators

#### 1.4.2. Conditions for Certification

Once certified, the Organization will be audited at least annually to monitor its continued conformity with all applicable certification requirements. The Organization will also be required to fulfill all the corrective actions (if applicable) within the given timeframes, as mentioned in this report.

Aiming to verify the continuity of the compliance check and implementation of corrective actions proposed, ACUC will conduct the annual surveillance audits in accordance with applicable requirements.

<b>Estimate period for the next audit:</b>	07/08/2022
<b>Issuance date of the first certificate:</b>	18/05/2022
