1.2.4. Stakeholder Consultation Process

All stakeholders interviewed informed that the Soyleaf project with the farmers helped with better understanding and knowledge about good agriculture practices, social and environmental subjects.

1.2.5. Site selection

Farmers selected randomly based on RTRS_CAL-AGR_T01_ENG_v2_5. As per Calculator 49 farmers need to inspect + ICS. Farmers selected based on Area and Location.

1.2.6 Methodology of the audit time calculation

Total number of members of the Multi-site or Group:	9479
--	------

Risk elements identified by the audit team for sampling methodology:	Risk identification is done on the basis of available information locally, maps of the area, information from ICS & based on the result of ICS risk assessments. All farmers are located in same geographical proximity & following similar production practices. As risk is identified in Calculator as Low hence as per sampling is 49 farmers + ICS. Due the proximity we audited 50 farms.
Sample calculation:	$\sqrt{9479/2}=49 + \text{ICS}$

1.3.1. RTRS Principles and Criteria

Principle	Criteria	Applicant performance
1 - Legal Compliance and Good Business Practice	1.1	Farmers are well-informed with federal laws such as those per training to child labor, minimum wage, and others agriculture laws. Farmers are in compliance with legislation such as the environment protection act, minimum wage act, and child labor act, among other laws. There have been no documented violations of national or state laws. Farming carried out on land that is legitimately held.
	1.2	Farming is done in legally owned land, Land ownership documents are available with farmers, Same can be verified Madhya Pradesh Government website- mpbhulekh.gov.in. ICS have copy of land document available at office. Land documents verified of all selected farmer and evidence collected Mr. Bullu Raju from Village:Pathakarlai verified. Right to use the land is demonstrated. All farmers have land document copy available with them in hard copy . Survey numbers and Form B-1 of Farmers verified. Documents verified during the audit of Selected farmers.

	1.3	<p>An analysis of the potential social, environmental, and agricultural effects is carried out, and the findings and recommendations of the assessment team are shared with farmers. Social and Environmental impact assessment carried out by third party- Sarshid India Pvt Ltd. Ms. Arpita-PHD-Ent Science carried out the pAssessment, Assessment report available for verification. Indicators selected for monitoring and continuous improvement in accordance with RTRS requirements were presented. In Madhya Pradesh, a third-party organization evaluates the social, agricultural, and environmental impacts of cultivating soybean crop. Farmers undergo training on areas for growth, and those receiving the training report being familiar with the needs. For each continuous improvement indicator, deadlines and responsible parties were defined, as verified in the worksheet during the audit. In an interview with those responsible, they reported that if necessary, actions are taken to ensure continuous improvement.</p>
	2.1	<p>No evidence of coercive, compelled, bonded, or forced labor were found throughout this assessment. Workers are hired from the neighboring villages on the basis of an agreement reached between the farmer and the worker. According to the workers who were interviewed, they have the option to resign from their jobs whenever they choose. Ms. Sapna interview during the audit. There are no permanent positions available; only temporary ones. Workers are hired from nearby villages based on a verbal agreement between both parties; the employer does not keep any of the workers' salaries, identity documents, or property. None of the farm's employees are under the age of 18. Temporary workers' spouses are not required to work. Spouses of employees are allowed to work under certain conditions. It has been noted that the majority of agricultural workers are women. The farmers and the workers come to an agreement about the terms under which temporary workers will be hired. There is not to be any discrimination on the basis of caste, religion, or gender. The agricultural enterprises also make use of female laborer's in various capacities.</p>

2 - Responsible Labor Conditions	2.2	<p>Due to a widespread illiteracy problem, it can be challenging to find legal agreements. In order to assist with agricultural activities, temporary staff members are frequently sought out and recruited. Both farmworkers have reached a consensus on the amount of pay to be received. After conducting interviews with farmers, it was observed that it is standard practice for both parties to discuss pay and the scope of the assignment before any work begins. During agricultural activities, only contractual workers are hired when needed, and wages and working conditions are settled through negotiation between the worker and the farmer. The ICS is in charge of putting on training sessions for farmers. The farmers receive trainings on issues such as the requirements of RTRS, fundamental rights of work, health and safety, GAP, agricultural practices, and social and environmental requirements. Training provided to workers by Ms. Chandrakala Mandrah, Training records of the available for verification. Based on the inspected supporting documents and the discussions with the workers. Training record of workers at village- Pathakarlai., Trainer Ms.Chandrakala Madrah, dated- 17.05.2022. Also interview with worker Mr. Kalu of village- Amiganj.</p>
	2.3	<p>Farmers and workers are aware of the health & safety risk and its corrective measures, Only experienced persons are involved in high risk jobs. But during the Interview with farmer Ms. Shivcharan Barpetai from village: Jaitpur ,Told that she is received training on health and safety matters but she is not aware and understanding of health and safety matters. As this is a short-term indicator, it was not raised an NC, next audit this item will be verified again. Both farmers and workers are well-versed in the dangers of their profession and the means by which they can be mitigated. health and safety risks are identified by ICS and Develop the procedure for address the risk and Mitigate the same. Risk Assessment file No. 02 verified during the audit. According to the findings of an interview with farmers, it was found that the only potentially dangerous employment is the activity of spraying, which is done by the farmers themselves and by laborer's who have experience in the field. Conversations with both the farm workers and the selected farmers, During filed visit PPE kits available in Storage room, Training to using PPE kits provided to farmers and Workers, Training recorded verified of village- Mahrugaon, Dt. 14/05/2022 By- Ms. Mandrah. Farmers are typically the ones executing the spraying, and they are well-aware of the health risks connected with improperly applying agrochemicals. Mechanisms are created by Group Managers to follow the safety requirements, In ICS Manual: ICSMANUL/Soyleaf/ RTRS/2022-01- Page no. 15 Clearly mention the procedure and same training provided to the workers and farmers.</p>
	2.4	<p>All workers are employed on daily basis, No workers union are present . All workers are free to leave their job anytime.</p>

	2.5	<p>All workers are getting 350 INR for 6-7 hours work. Minimum wages for agriculture sector in Maharashtra government is 350 INR for 8 hours. No deduction observed in the wages paid. Workers also confirmed that wages are not deducted for disciplinary purpose. Only temporary workers are employed as per need. Normal working hours are 6-7 hours per day. No overtime activity is carried out. Usually overtime is not carried out in agricultural workers, harvest and other peak works are carried out on Piece work basis. Only temporary workers are employed during agricultural operations as per need. Overtime is normally required during harvesting however harvesting is normally carried out as piece work according to mutual agreement.</p>
3 - Responsible Community Relations	3.1	<p>As discussed with Stakeholders and Farmers, Communication made with them through ICS managers and Team, Regularly communication was done in between Producers and Community. Most of the farmers are part of Community. ICS manager communicated information regarding certifications and Agriculture activity through training, Posters and WhatsApp Messenger. ICS manager created of Local community and Farmers in What's app, Most of the time ICS manager communicated information through the same. Evidence: Interview with ICS staff & Farmers, Stakeholders and Community member. Verification of Poster WhatsApp group communication screenshots and Training register of Village- Parasgaon.</p>
	3.2	<p>This is Not applicable. As No case of disputed land use right observed. Farming is carried out on own agricultural land only. Its also observed that the farming is carried out since last 30-40 years. Verification of land records like Form B-1 of , Khasara no, Interviews with the selected farmers- Land records 8A and Khasra Book of selected farmers.</p>
	3.3	<p>Complaint procedure is defined in ICS Manual: ICSMANUL/Soyleaf/ RTRS/2022-01, A complaint register is maintained at ICS office and there was no complaints received so far. ICS manager communicated information regarding certifications and Agriculture activity through training, Posters and WhatsApp Messenger. ICS manger created of Local community and Farmers in What's app, Most of the time ICS manager communicated information through the same.</p> <p>Complaint registers are maintained at ICS office but verification of complaint register file no;</p>
