No any comment received on the public consultation therefore Mr.Nand Kishor Yadav - Chairman, Mr.Mehmood Khan -CEO and all the BOD's of this project interviewed and all other the stakeholders contacted through phone, email and personal interview.

#### 1.2.5. Site selection

Square root of total no of farmers/2\*1,2.  $\sqrt{5146/2*1,2} = 43$  farmers + one lcs office.

#### 1.2.6 Methodology of the audit time calculation

<b>Total number of members of the Multi-site or Group:</b>	5146
<b>Risk elements identified by the audit team for sampling methodology:</b>	Farmers are small & marginal land holders. Farmers are located in same geographical proximity & following similar production practices. Farmers are selected randomly from different villages.

<b>Sample calculation:</b>	square root of total no of farmers/2*1,2. $\sqrt{5146/2*1,2} = 43$ farmers + one lcs office.

#### 2.1.5. Methodology of the audit time calculation

<b>Total number of members of the Multi-site or Group:</b>	5146 farmers
<b>Risk elements identified by the audit team for sampling methodology:</b>	Risk identification is done on the basis of available information locally, maps of the area, information from ICS & based on the result of ICS risk assessments. All farmers are located in same geographical proximity & following similar production practices. As risk is identified as medium hence as per sampling methodology 35 farmers, but we audited 49 farmers during this audit.
<b>Sample calculation:</b>	$1 + (\sqrt{N}/2) \times 1.2 \times 0.8 + \text{one ICS office} = 35$ farmers to be inspected.

Category	Number of members	Attributed risk	Shared characteristics of the set
Group 1	5146	Medium	Farmers are located in the same geographical area & following similar agricultural operations, but since its an initialinspection the risk is medium.
Estimated time to evaluate the sites:			3 days with 3 auditors (9 Mandays)

<p><b>Brief justification:</b></p>	<p>Square root of number of farmers audited for Set 1 Following points are undertaken while deciding random sampling &amp; estimate time All farmers are small holders &amp; documentation is centrally managed. Farmers are located in same geographical proximity &amp; following similar agricultural practices Farmers &amp; fields are located nearby. Farmers are aware of the sustainable farming requirements. No land conversion or deforestation is happened. Considering above observation, auditor can audit approximately 6 farmers per day. No risk of GMO crop is there. Less use of fertilizers and chemicals. Less risk of labour issues as child labour.</p>

## 2.2. RTRS Principles and Criteria

Principle	Criteria	Applicant performance
1 - Legal Compliance and Good Business Practice	1.1	Applicable law related documents maintained by ICS. Farmers are aware about the applicable legal requirements & laws. Farmers confirmed awareness to minimum wages, child labor, no discrimination, no harassment requirements. Applicable taxes, Electricity bills, revenue are paid by farmers.
	1.2	Land records land bills. water usage bills are available with the farmers. 7/12 and 8 A (Govt. approved land record) verified during the audit. Land record verified of farmers Mr. Shivraj Basappa Kapse.
	1.3	Review on the agricultural, environmental & social review has been conducted & indicators are identified, Review has been conducted & documented in Agricultural, Environmental & Social review improvement document.
	2.1	Children are not employed in the farm. Children attend schools. Farmers confirmed that workers above 18 years old employed during agricultural operations. Only temporary workers are employed during agricultural operations. No sexual harassment, verbal or physical abuse is practiced. Workers are employed as per mutual agreement with farmers.

<b>2 - Responsible Labor Conditions</b>	2.2	<p>Literacy level is poor hence written agreements are not available.</p> <p>Temporary workers are employed during agricultural operations as per need. Wages are mutually agreed in between farmers &amp; workers. However its also depended upon how much avg.wages paid by other farmers in near by or in same villages.</p> <p>Temporary workers are employed by the farmers during agricultural operations as per need. Training is provided to the farmers &amp; workers by</p>
	2.3	<p>Workers are aware about the safety requirements &amp; health issues associated with unsafe agrochemical applications however workers are not employed if they do not agree to use protective equipments. PPE available with all farmers, Hand Gloves, Mask, boots and special clothes provided by farmers to labours.</p>
	2.4	<p>No any restriction on workers, farmers allow to workers interact with other (e.g. NGOs, trade unions, labour inspectors, agricultural extension workers, certification bodies).</p>
	2.5	<p>No deduction observed in the wages paid. Workers also confirmed that wages are not deducted for disciplinary purpose.</p> <p>Only temporary workers are employed during the peak season. Farmers &amp; workers confirmed during the interviews that no overtime is carried out</p>
<b>3 - Responsible Community Relations</b>	3.1	<p>All farmers are small holders. Communication for farm activates &amp; operation is made verbally.</p>
	3.2	<p>No case of disputed land use right observed. Farming is carried out on own agricultural land.</p>
	3.3	<p>Complaint registers are maintained at cluster/block level. Complaint &amp; grievances are dealt in 14 days. Details are recorded in complaint &amp; grievance registers. Complaint related to unavailability of timely labors were noted.</p>
	3.4	<p>Workers are employed from same or nearby villages. Trainings are provided to the farmers &amp; villagers on the sustainable agriculture to raise their awareness.</p>

<b>4 - Environmental Responsibility</b>	4.1	Review on the agricultural, environmental & social assessment has been conducted by ICS.
	4.2	No burning done in this region, Crop residue is incorporated in the soil to improve soil organic matter or used as Animal feed. Agricultural waste is decomposed & used as FYM. Non agricultural waste is disposed in safe manner.
	4.3	On the soil bunds native vegetation is maintained which also checks the soil erosion and by the maintenance of perennial trees on the field and in the conservation areas of the villages.
	4.4	No expansion on non agricultural area has been done. Farmers use their agricultural land to produce soybean. No agricultural operations are carried out in riparian zone.
	4.5	Hunting is not carried out by the farmers & workers. Local plants species are enhanced to promote vegetation. Awareness to this legal requirement is demonstrated in the interviews with farmers & workers.
	5.1	ICS has trained farmers on good agricultural practices. Soil bunds are maintained, shallow tillage practices are followed to reduce soil erosion. Agrochemical application is done to intended area. Soil bunds are maintained to reduce water erosion. No agrochemicals are sprayed in the water course. No irrigation is used in the soybean however ICS has prepared best irrigation practices for other crops. Farmers are aware of best irrigation practices.
	5.2	No vegetation is removed from the riparian area. Farmers confirmed that natural vegetation is not removed from riparian zone.
	5.3	Soil bunds are maintained around the farms. Shallow tillage practices are followed. Soil organic matter is also monitored.

<b>5 - Good Agricultural Practice</b>	5.4	Manufacturers recommendations are followed by the farmers. Only registered agrochemical use by the farmers.
	5.5	Transport separately and purchased by trained person, All the farmers are small holders hence agrochemicals are brought whenever required. Agrochemicals are stored away from children's reach. Red flags are placed to indicate recently sprayed areas. Neighbors are informed verbally on spraying activities.
	5.6	Use of cultural practices like crop rotation, Biological practices use of homemade botanicals, neem & cow urine spray, removal of insects & infested parts, hand weeding & chemical controls on need based, judicious & registered chemicals are followed by the farmers to reduce use of chemicals.
	5.7	NA as no use of biological control agent.
	5.8	Agricultural department is responsible to identify & monitor invasive species & outbreaks of existing pests. Farmers follow recommendations issued by agricultural department in case of major outbreaks.
