1.2.4. Stakeholder Consultation Process

Village representative - Gram Datoda - No any negative comment or complaint received.

1.2.5. Site selection

Risk identification is done on the basis of available information locally, maps of the area, information from ICS & based on the result of ICS risk assesements. All farmers are located in same geographical proximity & following similar production practices. The risk is identified as medium and as per sampling methodology 40 farmers were audited.

1.2.6 Methodology of the audit time calculation

Total number of members of the Multi-site or Group:	4281
Risk elements identified by the audit team for sampling methodology:	Medium
Sample calculation:	$1 + (\sqrt{4281}/2) \times 1.2 = 39,11$ farms + one Ics office
Sites randomly selected

Category	Number of members	Attributed risk	Shared characteristics of the set
Group 1	4281	Medium	All farmers are located in same geographical proximity & following similar production practices.
Estimated time to evaluate the sites:			10.5 Man Days
Brief justification:			Risk identification is done on the basis of available information locally, maps of the area, information from ICS & based on the result of ICS risk assessments. All farmers are located in same geographical proximity & following similar production practices. The risk is identified as medium hence the calculation is done as square root of $4281/2 \times 1.2$ which substitutes to 39.11 farmers as per sampling methodology hence 40 farmers were audited.

1.3.1. RTRS Principles and Criteria

Principle	Criteria	Applicant performance
-----------	----------	-----------------------

1 - Legal Compliance and Good Business Practice	1.1	Applicable law list is maintained by ICS (internal control systems). Farmers are aware about the child labour act and minimum wages. Farmers are complying with all the applicable laws like environment protection act, Minimum wages act, child labour act etc
	1.2	Right to use the land is demonstrated. Land records are maintained in hard copy.
	1.3	Assessment on the agricultural, environmental & social has been carried out by the ICS.
2 - Responsible Labor Conditions	2.1	No forced, compulsory, bonded or involuntary labours were observed. Workers are employed from the local villages on mutual agreement between the worker and the farmer. Children are not employed in the farms. Spouses of temporary workers are not forced to work. Spouses of workers can work on mutual agreement. Temporary workers are employed as per mutual agreements with the farmers & workers. Discrimination based on caste, religion, gender is not followed. Women workers are also employed in the agricultural operations. Male & female workers are paid equally for equal work.
	2.2	Written agreements are not available as the literacy level is poor. Temporary workers are employed during agricultural operations as per need. Wages are mutually agreed in between farmers & workers. As per the interview with farmers its understood that wages are given as per the mutual agreement and the work to be carried out need to be said prior to engagement. Farmers trainings are organized by the ICS. Trainings on topics like RTRS requirements, GAP, Agricultural practices, social & environmental requirements are imparted to the farmers.
	2.3	Farmers trainings are organized by the ICS. Trainings on topics like RTRS requirements, GAP, Agricultural practices, social & environmental requirements are imparted to the farmers. Health and safety risk and the mitigation procedures are identified by the ICS in the manual. As per the interview its observed that the farmer uses full dress and scarf as PPE.
	2.4	No Unions available, the payment and other things are mutually agreed. Workers are allowed to interact with any external parties. There is no restrictions imposed to the workers in any means.
	2.5	Only temporary workers are employed during agricultural operations as per need. No deduction observed in the wages paid. Workers also confirmed that wages are not deducted for disciplinary purpose. Overtime is not carried out in agricultural workers, harvest and other peak works are carried out on Piece work basis.

3 - Responsible Community Relations	3.1	All farmers are small holders. Communication for farm activities & operation is made verbally. ICS has provided trainings to villages along with member farmers & workers on RTRS.
	3.2	As no case of disputed land use right observed. Farming is carried out on own agricultural land only. It is also observed that the farming is carried out since last 30-40 years. It is observed that each village customs and cultures are followed by the villagers as observed through interview with villagers and through physical observation.
	3.3	Complaints can be lodged to ICS & recorded in complaint registers maintained at ICS. Additionally farmers or villagers can also approach Field Officer to lodge their complaints.
	3.4	Workers are employed from same or nearby villages. ICS has imparted trainings to the farmers, workers & villagers on sustainable agriculture. As per the interview it is understood that the trainings are carried out in villages and any one from the village can attend the session. All farmers are small holder. Agricultural inputs like seeds, fertilizers, pesticides are sourced locally.
4 - Environmental Responsibility	4.1	There is no assessment carried out with respect to Social and Environmental.
	4.2	Burning of crop residue or vegetation clearance through burning is not carried out. Crop residue is incorporated in the soil to improve soil organic matter. All farmers are small & marginal land holders. Fuel is not stored, it is bought whenever required & used immediately. Agricultural waste is decomposed
	4.3	Farmers confirmed that fuel use is not increased. Only limited quantity as per requirement is used, the tractor or the equipment is serviced for better efficiency. Soil test reports were not available
	4.4	No expansion on non agricultural area has been done. Farmers use their agricultural land to produce soybean. No agricultural operations are carried out in riparian zone. The cultivation is carried out by more than 30-40 years.
	4.5	Farm maps with illustration of native vegetation were found KML Map developed through Google Earth. Hunting of wild animals/rare, threatened or endangered species is not done. These are very small and marginal farmers, farm bunds and trees available in the farm is maintained and wherever the riparian buffer is available the same is also maintained.
	5.1	ICS has trained farmers on good agricultural practices. Soil bunds are maintained, shallow tillage practices are followed to reduce soil erosion. Agrochemical application is done to intended area. There is no plan available to monitor the risk identified with respect to Good Agricultural Practice.

5 - Good Agricultural Practice	5.2	Watercourse are identified like well,river etc & mapped by the ICS. No vegetation is removed from the riparian area. Farmers confirmed that natural vegetation is not removed from riparian zone.
	5.3	The topography of the area is flat, bunds are maintained around the farms, there is no chances of soil erosion in this area. The farmers here take 2-3 crops in a year. Soya - Potato - Onion or garlic are crop mainly sown after soya.
	5.4	Manufacturers and ICS recommendations are followed by the farmers. The farmers use only registered agrochemicals which are available in the market. Records of monitoring of, pests, diseases, weeds and natural predators are not maintained.
	5.5	The farm records to maintain the records like Agrochemical purchased, applied quantity,date of application, area of application etc.
	5.6	As per the interview with farmers its observed that there is no information provided by any means with regard to recently sprayed areas.No agrochemicals listed in the stockholm & Rotterdam conventions are used. Its observed that some farmers use Paraquat, however as per the interview with The ICS Manager its understood that the ICS will take steps to stop using Paraquat by the RTRS farmers.
	5.7	No use of biological control agent.
	5.8	Agricultural department is responsible to identify & monitor invasive species & outbreaks of existings pests. Farmers follow recommendations issued by agricultural department in case of major outbreaks.
	5.9	Good agricultural practices are defined & documented by ICS. Soil bunds are maintained around farms, no chemical is sprayed in the water course. Aerial application is not carried out. No agrochemicals are sprayed near to the sensitive areas such as water courses, natural habitat & residential areas.
	5.10	Farmers following similar agricultural practices. No GM soybean is available in India
